

Please leave Indiana's Telephone Privacy Law as it is.  
No interruptions from telemarketers-- it's great.  
No hang-ups on the answering machine--much appreciated.  
Telemarketing calls are intrusive to my private life. I don't do business over  
the phone with anyone who telephones me. If I initiate the call-- that's  
another matter.  
Indiana's no-call law has improved our lives and privacy.  
Thanks for listening.
